Real culinary tools from the Allgäu region

Good food can connect people, make them proud and inspire them. It creates moments of joy – from a quick bite to a grand occasion, whether you're cooking "by feel" or following a recipe. RÖSLE offers clever solutions for your kitchen and your barbecue to support you on your culinary mission.

Picturesque landscapes, traditional craftsmanship and excellent cuisine are characteristic of the Allgäu region and of our brand, RÖSLE. Gourmet tools from the Allgäu – that's our promise to develop products that make cooking every day a true pleasure and will help you enjoy daily life with family, friends and acquaintances. At Rösle, we strive to be "authentic" in everything we do. Authenticity means human connections based on trust, respect and sincerity. For authentic moments of enjoyment that shape day-to-day life and bring you lots of community spirit, joy, and light-heartedness.

True enjoyment. RÖSLE.

True premium enjoyment.

BLAZEFLAME

NEW

Peak performance to perfection

The new barbecues in the **BLAZEFLAME** series turn barbecuing into an experience that inspires all the senses. Developed to meet the highest demands, the barbecues combine innovative technology with stylish design and offer unbeatable performance for passionate barbecue pros and connoisseurs. Behind the elegant, matt black exterior are refinements and perfected

details as well as high-quality materials that withstand even the most intensive use. The heart of the barbecue, the die-cast aluminium combustion chamber, enables maximum heat efficiency, ensures optimum heat distribution and exceptional durability. The premium barbecues are equipped with a PRIMEZONE (up to 800 °C), side burners and a BACKBURNER and open

up unlimited possibilities for creative recipes. Thanks to the wide range of temperatures, both tender vegetables, delicate fish and succulent steak with a perfect crust are possible. And not to forget the simple cleaning after the barbecue. Dirty corners or the laborious removal of individual parts are a thing of the past. For ultimate barbecuing enjoyment without compromising.

BLAZEFLAME

Barbecuing on a whole new level

BLAZEFLAME - the future of barbecuing begins now. The new in-house development from RÖSLE turns barbecuing into an experience in a class of its own. The premium series offers the perfect symbiosis of innovative technology, unique design and impressive performance. The BLAZEFLAME sets new standards and takes centre stage at every barbecue party. As soon as you open the lid, you can see that every single detail has been carefully considered. The **combustion chamber** made of high-quality **die-cast aluminium** ensures maximum efficiency and durability.

The intelligent **ONSTAGE lighting** shows the barbecued food in the best possible light, while the **high-performance burners** do their job. And at temperatures of up to 400 °C. Even when the lid is closed, the **panoramic window** allows an unrestricted view of the food.

Temperature control is effortless thanks to a digital thermometer with **two core temperature sensors**. The values can be easily read on the display or using the Bluetooth app. Of course, the **PRIMEZONE** is essential for the perfect steak. It meets the highest demands with a temperature of up to 800 °C and generous XL size, integrated in the left-hand side table. The whole thing is complemented by the **side burner** and the **BACKBURNER**, which provide additional options for creative barbecuing.

BLAZEFLAME - a statement for all those who want the best.

Revolutionary cleaning!

After the barbecue party, the work begins: cleaning up, washing the dishes and storing the leftovers of the delicious food. And then there's the barbecue. Anyone who likes barbecuing knows how important the right care is for the barbecue to last a long time and always be ready to use. But let's be honest, cleaning the barbecue is not exactly one of our favourite jobs. With the BLAZEFLAME it's different. Thanks to its intelligent burner and grease draining system, cleaning is easier and faster.

- ✓ Innovative die-cast aluminium **combustion chamber**: made in one piece, without ribs or struts, simply wipe with a damp cloth.
- ✓ Well-designed **burner rack**: easy to remove and disassemble for quick and easy cleaning.
- ✓ **Warming rack** and **grease trays**: multi-part, extra small and handy. Dishwasher-safe, practical and hygienic.
- ✓ **Funnel** in the **PRIMEZONE**: innovative fat draining ensures that the grease burns off and no additional cleaning is necessary.

The BLAZEFLAME not only boasts first-class performance and a modern design, but also a cleverly designed overall package for barbecue pros and their guests.

For unforgettable barbecuing moments.

Outstanding details!

COMBUSTION CHAMBER○

The die-cast aluminium combustion chamber ensures maximum heat efficiency and exceptional durability:

- Even heat distribution in the grilling area
- Efficient use of heat, good temperature control
- Dimensionally stable, robust design
- Corrosion resistant for a long service life
- Withstands high temperatures and frequent use
- Smooth surfaces without ribs and welds for easy cleaning and tightness
- 10-year warranty

BURNER UNIT○

Powerful stainless steel burners for temperatures of up to 400 °C:

- Up to 4 main burners each with 4 kW output
- Heavy-duty flame tamers for optimum temperature distribution without hot or cold zones
- Precise control for energy-saving barbecuing – even at low temperatures
- Easy to clean: burners and flame bridges can be removed completely and in one piece with just a few steps

GREASE COLLECTION○ SYSTEM

Practical and safe system for clean barbecuing:

- Excess grease is reliably drained away and collected
- Prevents dangerous grease fires and protects the internal barbecue components
- Multi-part solution for clean and efficient disposal
- Handy trays can be conveniently removed from the front and cleaned in the dishwasher

PRIMEZONE

High temperature zone for perfect steaks with golden brown crust:

- Extra hot XL grilling zone up to 800 °C
- Energy-efficient infrared technology for direct, even heat
- No heat loss: maximum power directly on the grilled food
- Height-adjustable grill rack for perfect heat control
- Removable funnel, for cleaning in the dishwasher, without separate drip pan

SIDE BURNER

Side cooker for additional cooking options:

- 3.5 kW output, for side dishes, sauces or soups
- With high adjustment range and very good heat supply controllability
- For multifunctional BBQ and preparing whole dishes on the barbecue
- Height-adjustable pot rack, also for larger pots and pans

BACKBURNER

Powerful infrared ceramic **BACKBURNER** for perfect turning:

- 3.6 kW (Master 3) or 4.6 kW (Master 4) output for even cooking on a rotary spit, ideal for chicken, roasts or gyros and more
- Infrared heat with even heat distribution for perfect browning and succulent results

Outstanding details!

GRILL RACK

Grill rack made of enamelled cast iron for typical branding:

- Large grilling surface with 60 x 48 cm (Master 3) or 80 x 48 cm (Master 4)
- Divided into four segments for easy handling and cleaning
- The seamless connection of the grill racks ensures uniform, perfect branding
- With Vario+ barbecue system suitable for Vario inserts such as wok, grill tray, pizza stone or Dutch oven
- For extremely creative barbecued treats

WARMING RACK

Additional space in the barbecue area, away from the direct heat:

- For keeping ready barbecued food warm or for gently cooking food that requires less heat
- The barbecue time is used efficiently, whole dishes can be served together
- Multi-part, for flexible attachment on the rear of the combustion chamber
- With three (Master 3) or four (Master 4) segments, for easy removal and cleaning in the dishwasher

LIGHTING

For a perfect view even in the dark:

- With intelligent cooking chamber **ONSTAGE** lighting
- In combination with the panoramic glass lid, it offers the perfect view of the food
- Even when the lid is open, the combustion chamber is perfectly lit, the light shines onto the grill racks from above
- Dual-colour illuminated control panel knobs
- Lighting can be switched on or off as required
- External power supply or a 12V power bank

SIDE TABLES

Practical, functional and space-saving:

- Additional work surface for preparing marinades, spices or as a shelf for barbecue tongs, including cutlery holder
- Space-saving design with side tables that can be folded upwards for easy transport and compact storage of the barbecue
- Solid handle allows for effortless manoeuvring of the barbecue, perfect for flexible use

TEMPERATURE CONTROL

Smart technology for precise barbecuing:

- The type of meat, cooking state or target temperature can be individually adjusted using the app, and a notification is sent as soon as this is reached
- Two core temperature sensors for the barbecued food and an integrated combustion chamber sensor for the cooking chamber ensure maximum control
- Temperature data is accessible through the app and the LED display on the barbecue, intuitive and user-friendly

STORAGE CABINET

Flexible storage concept for an open-plan outdoor kitchen:

- Shelves can be placed at different heights, individually for different needs
- Practical doors, can be opened up to 180° and lock securely, easily and robustly
- Magnetic hook strips can be flexibly attached to doors (inside/outside), the gas bottle cover or side tables, ideal for organizing accessories
- Gas bottle cleverly stowed behind a removable cover, including rails and Velcro® for secure fixing

NEW

BLAZEFLAME

the models at a glance

They both have something in common:

- Robust and durable die-cast aluminium combustion chamber
- Powerful burner system (4 kW each) with heavy-duty flame tamers
- Intelligent grease collection and draining system for easy cleaning
- XL PRIMEZONE (5 kW) for extreme heat and perfect branding
- Side burner (3.5 kW) as an additional cooking option for side dishes or sauces
- Heavy-duty grill racks made of enamelled cast iron for excellent heat distribution with Vario+ barbecue system for Vario inserts such as wok, pizza stone or Dutch oven
- Flame tamers, grease trays and stainless steel warming racks, dishwasher safe
- Well-designed ONSTAGE interior lighting for the perfect view of the barbecued food and dual-colour illuminated rotary knobs for easy operation in all lighting conditions
- Panoramic glass insert without lid thermometer to see into the cooking chamber without losing any heat
- Side tables that can be folded upwards on both sides for easy transport and space-saving storage
- Smart display of cooking chamber and core temperature through the app or digital display for perfect barbecuing results
- Including two core temperature sensors for precise cooking
- Flexible storage space concept in the storage cabinet with magnetic door stoppers, flexible shelves and gas cylinder cover for gas cylinders up to 11 kg DE
- Magnetic cutlery holder for individual attachment to side table, storage cabinet doors and gas bottle cover
- Case made from powder coated steel

BLAZEFLAME MASTER 3

- Gas grill with 3 burners made of stainless steel
- Main barbecue area: 60 x 48 cm
- Warming rack: 55.5 x 14 cm
- Integrated infrared ceramic BACKBURNER, with 3.6 kW ideal for rotary spit dishes
